MESSAGE FROM THE FOUNDER & MANAGING DIRECTOR.

The Health of people is the real foundation upon which all their happiness and and all their power as a state depend.

There is nothing education cannot do,Nothing is above its reach,It can turn bad morals to good,It can destroy bad principles and recreate good ones.It can make men and women into angels.

Chato Health Foundation firmly believes in the above truths and proceeds head on in its achievements, with them as background guiding principles.

In pursuit of such belief in the creation of Chato College of Health Science and Technology at Chato Urban Area in geita Region,Lakezone Tanzania mainland.

The main Vision of Chato Health Foundation Tanzania Limited through Chato college of Health Science and Technology is to create a strong force of Clinicians,Nurses ,Pharmaceutical carders and other related medical professionals to fight against and prevent diseases and provide quality care for patients as well as to minimize the scarcity of health professionals in chato and other parts of Tanzania in order to meet the minimum requirements as per MDG and BRN Health as stipulated by Ministry fo Health and sociowelfare & PMO-RALG.

In our analogy,the first ring is the Science of Medicine,evidence based scientific foundation which determine all that we do.

The other ring interlocked with the first is the medical ethics,the moral underpinning that ensures that what you do is the right one,morally,ethically and spiritually as well.

I compliment you all for being clinicians,Nurses ,pharmacy professionals and other related medical carders and the Chato Health Foundation Tanzania Limited through Chato college of Health Science and Technology is comprised of you all with a guiding principles.

Lastly,it is not the urge to surpass all others at what ever cost.”

“But the urge that to serve the others at what ever cost.

Best wishes: Dr Joel Limbu Maduhu,Managing Director,Chato College of Health Science and Technology.
